

To Whom It May Concern:

It is with great pleasure that I recommend Mr. Jeff D. Stahl for a position in your education organization. Jeff Stahl is one of the most competent, collaborative, and committed student-educators I have seen in my career as a college professor and teacher-education professional.

I have had the pleasure of instructing Jeff during my required College of Education course (ED412) at Temple University, called *Student Teaching Seminar*. I have been privy to the development of this multifaceted professional, and his work has been exemplary.

Jeff D. Stahl has been student teaching at Boyertown Area Senior High school and I am sure, based on his feedback, that the quality of the curriculum in the business education program has been significantly increased. His primary teaching responsibilities were Business Law, Professional Development, and instruction of various computer applications.

If I had a teaching position open that encompassed any of the areas of business education, Mr. Jeff D. Stahl would be the individual whom which I could place my trust and confidence in exceeding my expectations. He has not only shown a deep understanding of business core subject matter, but also connects with the students at their level. His mission statement, "Boldly, yet with empathy, leading students into a successful future," will be easily reached with his drive, determination, sincerity, and exceptional knowledge of a technologically-changing world. He is creative, deeply conscientious, professional, and hard-working.

His commitment to excellence doesn't stop here. Jeff is interested in obtaining his doctorate degree in education, showing his commitment to continuous professional development. I have no doubt that Jeff can & will succeed as a doctor of education.

I strongly recommend Jeff D. Stahl, and am sure that you will be more than satisfied with his performance inside and outside the classroom. Feel free to contact me personally with any questions.

Sincerely,

Dr. David Feeny
